THREE DAYS FAMILY MEDIATION TRAINING WORKSHOP

MTI East Africa has introduced **a Three days Family Mediation Training workshop.**

Family mediation is a conflict resolution method whereby an impartial mediator intervenes in the conflict with the consent of the spouses/parents to help the parties negotiate an equitable agreement that is entered into of their own free will, in accordance with the legislation.

The goal of Family mediation is to help spouses/parents to identify the sources of Conflicts and to solve them. Through family mediation, the spouses/parents guided by the mediator have constructive discussions and negotiations favoring the preparation of an agreement adapted to their needs and those of their children.

The objective of family mediation is to allow the spouses/parents to achieve an equitable agreement entered into with a free and enlightened consent from both parties.

Eligibility Requirements: This workshop will be open to participants from all disciplines and professional fields.

Course Materials: A Family mediation Practice Manual plus e-material will be provided to participants.
